

# Equipment Strategy

Realise savings and improve your site maintenance regime

## EQUIPMENT REVIEW

## CRITICALITY ASSESSMENT

## REALISED BENEFITS

“I engaged Nuffield to develop approximately 3,200 strategies for us, encompassing over 50,000 equipment items. First, the project was completed on time and under budget. However, the main highlight was the approx. \$7m per annum that the equipment strategies saved us. These savings will be maintained for as long as the Equipment Strategies continue to be implemented. It was a very worthwhile investment!

 **Amit Rao, Nuffield Group client**
